# INTENSIVE ENGLISH COURSE (IEC)

This course is designed to help students improve their English language knowledge and proficiency. This intensive course is available in one, two, three, four or six months, depending on the students' requirements. Before each course, students are required to sit for a placement test to determine which level they should start at. At the end of the course, the students are expected to progress in their language proficiency, that is assessed through tests aligned with the the Common European Framework of Reference (CEFR). Students can also expect to be able to use the language in a real context on their English course, both inside and outside the classroom.

As an option, for those who have not met the English language requirements set by UMK or other higher learning institutions in Malaysia, they will have to sit for Malaysian University English Test (MUET) or International English Language Testing System (IELTS). This intensive course also provides MUET and/or IELTS workshops to prepare students for the test.

Classes and the learning hours vary in accordance to the course duration. Students can expect a convenient learning environment with dedicated instructors, small class size, fresh and modern lessons relevant to today's international topics as well as technology-assisted teaching and learning. The course also focuses on practical, effective and natural communication to help students equip themselves to fast-track their language proficiency.
